				Yes No	
				Yes No	
				Yes No	
				Yes No	

**Sidenotes:**

In the date location you'll mark the date in which you checked the chemicals. To the right, in the upper portion should be the reading and the lower portion should contain the adjustment that you made. In the notes field, you'll add anything of relevance – changed/greased pump lid o-ring, replaced backwash o-ring set, changed sand or completed a DE teardown, etc.
